

## High Speed Double Profile Paper Corrugating Machine

---

### Double Profile Oblique Type Single Facer

This advanced corrugation machine features a twin flute/double profile system designed to use two different flutes in one machine without the need for changing flutes. It's perfect for producing both regular and printed corrugated boxes from a single source.

#### Key Features

- Twin flute/Double profile system
- Two different flutes without changing equipment
- Oblique type single facer design
- Hydraulic self-loading reel stand with twin shaft
- Two sets of optional flute rolls
- AC Drive system

- Auto Cut Panel
- EN24 Forging Rolls
- Converts paper into 2-ply corrugated rolls

### **Technical Specifications**

<b>Size</b>	<b>Heating Load</b>	<b>Power Required</b>
42"	33 KW	7.5 H.P.
46"	33 KW	7.5 H.P.
52"	36 KW	7.5 H.P.
62"	39 KW	10 H.P.
72"	45 KW	10 H.P.

### **Applications**

Ideal for manufacturers requiring versatility in corrugation production. Suitable for facilities producing various types of corrugated boxes and packaging materials with different flute specifications without machine changeover time.
