

## Vertical Type Corrugation Machine

---

### Multi-Purpose Lamination Solution

This vertical type corrugation machine is designed for laminating cardboard to cardboard or cardboard to corrugation paperboard. It handles multiple flute types including A, B, C, D, E, F, and N flute corrugation paperboard.

#### Key Features

- Vertical design for space efficiency
- Multiple flute compatibility (A, B, C, D, E, F, N)
- International brand electrical and electronic components
- Wide adjustment range for precise control
- Easy-to-operate control system

- Versatile lamination capabilities
- Professional-grade construction

### **Technical Specifications**

<b>Size</b>	<b>Heating Load</b>	<b>Power Required</b>
36"	27 KW	5 H.P.
42"	27 KW	5 H.P.
52"	27 KW	5 H.P.
62"	33 KW	7.5 H.P.
72"	36 KW	10 H.P.

### **Applications**

Ideal for corrugated box manufacturers requiring lamination capabilities for various board types. Perfect for facilities producing multi-layer corrugated boards and specialty packaging materials. Suitable for operations requiring flexibility in flute types and board combinations.
